

# Suspension Instructions

SKU 3524

Take your penis ring play to a whole new level with Suspension! This ring not only hugs the base of the penis, it also cradles the scrotum with rapturous vibrations. Made of creamy soft and pliable silicone, both penis and testicle rings are super stretchy for a comfortable fit. The cradle goes between the testicles while the textured motor nestles behind to also stimulate the perineum. While enjoying a harder erection, choose from 9 vibration patterns to find the optimum rhythm. Can be used with the remote or independently. Use Suspension solo in and out of water! It's completely submersible. Suspension is remote controlled for enterprising couples! With a 30-foot range, there is a lot of fun to be had!

## Operating

This toy must be turned on with the button directly on toy. Once toy is on, it can be operated with the same cradle button directly, or with the remote control.

**To operate with cradle directly:** Turn the toy on by pressing the Power Button at the base of the toy for at 3-4 seconds. The toy will enter standby mode. Tap the same Power Button to cycle through 9 speeds and functions of vibration. Turn the toy off by pressing the Power Button for 3-4 seconds. If left on standby, the toy will turn off automatically after 20 minutes.

**To operate with remote control:** Turn on the remote control by pressing the Power Button for 3-4 seconds. Then turn the toy on by pressing the Power Button at the base of the toy for 3-4 seconds, which puts it in standby. Once the toy motor is engaged and in standby, tap the Power Button on the remote to cycle through 9 speeds and functions of vibration. Turn the remote control off by pressing the Power Button for at least 3 seconds. If left on standby, the remote will turn off automatically after 20 minutes.

### Caution: For all erection rings.

This non-medical device is intended as a sexual enhancing aid only. Not intended for contraceptive/birth control or the treatment of erection conditions.

Use no longer than 30 minutes at a time. Allow 60 minutes between additional uses. Do not fall asleep or fall asleep under the influence of alcohol or drugs while using this product. Prolonged use (without removal) may result in bruising at the base or permanent injury to the penis. Consult a physician should any complication occur and discontinue use immediately.

## Charging

Indicator light will flash when charging and glow solid when complete. Connect to a USB power source.

Remote and cradle need charging. This vibrator arrives with a partial charge. Fully charge before first use. Connect the USB cable to the USB port of your computer or other power source and align the magnetic charging cord directly onto the two magnetic dots on the cradle. Next Connect the USB cable to the USB port of your computer or other power source and align the magnetic charging cord directly onto the two magnetic dots on the remote.

The light on the control panel will flash when charging and remain solid when fully charged. Full charge takes about 1 hour each for the remote and the cradle. There is no danger of over-charging, but we recommend not to charge for long periods of time. Battery life depends on frequency and speed of use. We recommend fully charging your product once every 6 months. Only use the cord supplied with this product or an Athena's authorized replacement cord.
